Office: Bangkok, Thailand

Practices: Intellectual Property, Regulatory Affairs, Technology, Multimedia, and Communications

BIOGRAPHY

Siraphapha (Khim) Rungpry is a consultant in the Tilleke & Gibbins intellectual property group. With her practice focusing mainly on pharmaceuticals and life sciences, Siraphapha serves international clients in this sector in both contentious issues, including pharmaceutical IP and product liability litigation, and noncontentious issues, including regulatory affairs, contract and advertising review, and compliance matters.

In addition to her role at Tilleke & Gibbins, Siraphapha currently serves as Project Manager for the National Innovation Agency, Ministry of Science and Technology, where she is responsible for IP consultancy, licensing, valuation, and project management. A cogent advocate for IP protection, Siraphapha is a frequent contributor to general and legal publications, gives televised interviews, and lectures at universities, seminars, and conferences.

Siraphapha is a graduate of the New York University School of Law (LLM with distinction), Boston College Law School (JD, cum laude), and the University of Chicago (BA in Economics with honors).

EXPERIENCE

- Advised a pharmaceutical client on various IP issues, such as product liability, government advocacy on new regulations, compulsory licenses, new laws (Patent Act, Drug Act), and trademark registration.
- Acted as counsel to a major pharmaceutical company, which representation included liaising with the Thai FDA on marketing compliance issues, verifying that the client's marketing activities were in compliance with the complex regulations governing pharmaceutical practice in Thailand, and preventing and mitigating risk and loss.
- Represented a multinational pharmaceutical company in patent infringement litigation against a local generic company. Managed a major pharmaceutical-related patent during a trial on patent infringement.
- Prosecuted pharmaceutical patent litigation against various local producers of infringing generic drugs.
